PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years building production-grade web applications using React, Next.js, Node.js, and TypeScript. Founded two AI-powered SaaS products from zero to launch — one successfully acquired. Experienced in RESTful API design, database architecture, cloud deployment, and integration of AI/ML APIs. Comfortable owning the full product lifecycle from architecture to production in fast-moving environments.

EXPERIENCE

Founder & Full Stack Developer · MirrorLook AI

Jan 2026 – Present Remote

- Sole developer of a fashion-tech AI virtual try-on platform, managing the full stack from frontend to infrastructure.
- Built responsive UI and RESTful APIs using React, Next.js, and Node.js with AI/ML model integrations.
- Designed and optimised the application for performance across web and mobile breakpoints.

Founder & Full Stack Developer · Interiores AI (Acquired

Mar 2025)

Aug 2024 – Mar 2025 Remote

- Conceived, built, and sold an AI-powered interior design SaaS product as sole developer within 7 months.
- Implemented real-time design visualisation tools using React, Next.js, Supabase, and AI/ML API integrations.
- Delivered a dynamic user interface that drove measurable improvements in user engagement and retention.

Full Stack Developer · Consejo de Médicos – Prov. de

Córdoba

Nov 2024 – Nov 2025 Córdoba, AR

- Developed a self-management web system serving 20,000+ medical professionals across the Province of Córdoba.
- Built a responsive, full-stack application using Next.js, React, Tailwind CSS, JWT authentication, and Redis caching.
- Integrated a PHP backend with a modern frontend stack, delivering a seamless cross-platform user experience.
- Designed RESTful APIs handling complex business logic for professional registration and credential workflows.
- Deployed and maintained the production environment on Coolify, ensuring high availability at scale.

EDUCATION

Systems Analysis & Software Development · IES Siglo

21 University

Mar 2024 – Expected Dec 2026 Córdoba, AR
